### TRACK 6: FILM FESTIVAL

The SIETAR Europa Film Festival, first held in 2007 Sofia, Bulgaria, screens selected documentaries as part of our major congresses.

The added value of documentaries is that they reach people in a different way, films have an emotional appeal. What cannot be accomplished through spoken and written texts is often achieved through the visual elements characteristic of the film screen. We aim to screen documentaries that incite compassion, reflection, discussion and action.

Documentaries can be very useful as teaching and learning tools in education. Myriad social media and virtual communities create opportunities for discussing and sharing views. During this 2019 congress, SIETAR, again, offers opportunities on how to use films or film fragments for intercultural, virtual teaching, training and coaching.

During each Film Festival we screen films matching the congress theme and tracks. This year the Film Festival is organized around the 4 tracks, each screening two films:

Each film is followed by a Q&A with filmmakers, discussions with the audience, panel discussions, debate with experts, politicians, journalists or representatives from stakeholder organizations. The FF committee hopes that the films will fascinate, stimulate and inspire!
